

Policies for Institute-Industry Interaction Cell (IIIC)

1. For the wholistic approach to the SSMIET Model 2023, IIIC supports and cooperates all the activities of the respective department and Institute's Innovation Council (IIC).
2. IIIC confirms that all students have equal access to IIIC resources, opportunities, and benefits regardless of their background, gender, ethnicity, or other personal characteristics, promoting inclusivity and diversity.
3. IIIC clarifies ownership and rights regarding any intellectual property developed or co-created during collaborative projects, ensuring fair and equitable distribution of rights between the institute and industry partners.
4. IIIC defines expected ethical behavior for all participants involved in its activities, including students, faculty, and industry representatives, promoting integrity, honesty, and professionalism.
5. IIIC establishes a systematic feedback mechanism to collect input from industry partners, students, faculty, and other stakeholders, enabling continuous evaluation and improvement of IIIC initiatives, services, and processes.
6. IIIC ensures that any confidential information exchanged between the institute and industry partners is kept secure and not disclosed to unauthorized parties.
